

# Sanitation Safety Planning Tools for WASH Professionals

## TRAINING WORKSHOPS

[www.waterpathogens.org/tools](http://www.waterpathogens.org/tools)

The Knowledge-to-Practice (K2P) Global Water Pathogens Project in partnership with the Uganda National Water and Sewerage Corporation invite you to join virtual training workshops of **The Treatment Plant Sketcher Tool** and the **Pathogen Flow & Mapping Tool**. These tools follow waterborne pathogens through the sanitation chain and allow the user to run scenarios that can help to support sanitation decisions.
